DETAILED ACTION

Response to Arguments

1. Applicant's arguments with respect to claims 11 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claim 11 is rejected under 35 U.S.C. 102(e) as being anticipated by Leung (US Patent 6,963,918 B1).

Regarding to claim 11, Leung discloses a method of transmitting a packet in a wireless network (fig. 2), the method comprising receiving the packet from a mobile station 210 at a node 204 for routing the received packet to a service provider server 226 (col. 5 lines 2-8); determining a predetermined policy (care of address) for at least

Art Unit: 2663

one of a user associated with the packet (col. 5 lines 28-32; a care of address associated with the packet is determined); and selectively causing the node to assume a role of a home network for the mobile station based on the predetermined policy (col. 5 lines 32-35; based on the care of address, the packet is forward to the FA 204 rather than the HA 224 and thus the FA 204 act as the home agent).

Allowable Subject Matter

4. Claims 1-10 and 12-23 are allowed.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
